PERSONAL STATEMENT

I'm an avid gamer. When I'm not playing video games I am walking my Jack Russell, Lucy. I decided to learn to code after realising lockdown presented the perfect opportunity to pursue something I had always found interesting.

PROJECTS

- <https://davejonesuk.dev/projects/flag/index.html>: I wanted to test my knowledge of vanilla JavaScript and created a simple game of matching flags around the world to the countries they represent.
- <https://davejonesuk.dev/projects/house/index.html>: My wife and I needed a more objective tool to compare potential future homes in our house search. This tool helped in successfully identifying the dream house we ended up buying.

SKILLS

- HTML
- CSS
- JavaScript
- Bootstrap

EDUCATION

- Free Code Camp // 2021
 - [Responsive Web Design Certificate](#)
- City & Guilds level 1,2,3 in Automotive Repair // 2009-2012
- Key Skills English & Maths Level 2 // 2011
